FIBRE BASED RECYCLABLE PACKAGING

BPIF CARTONS BE PART OF YOUR NETWORK

OUR MISSION IS TO GROW, PROMOTE AND PROTECT THE UK
CARTON INDUSTRY'S INTERESTS AND PROVIDE TOOLS FOR MEMBERS
TO COMPETE EFFECTIVELY IN THE PACKAGING MARKETPLACE.

[BPIFCARTONS.ORG.UK](https://bpicartons.org.uk)

At BPIF Cartons, our mission is to grow, promote and protect the UK Carton industry and support members to compete effectively in the marketplace. We provide a platform for members to network, share advice and have their voice amplified to government through our Policy and Public Affairs Committee.

We strive to educate and inform the wider community about the environmental and commercial advantages of cartonboard, and promote our members' products and services as well as initiatives such as the Trees Into Cartons, Cartons Into Trees (TICCIT) programme.

BPIF Cartons members have access to additional information, services, training events and webinars. We also provide an all-in-one e-learning platform which allows members to access customised training focusing on modules of their choosing, and even allows the addition of company-specific modules.

We hold regular social networking events including luncheons and presentations throughout the year to bring members together. Recent events have included the annual Chairman's lunch, our Summer Event including the presentation of the BPIF Cartons Awards.
