

CORPORATE PRESENTATION

.....
Enhance Your
Competitive Edge

Every industry evolves

Coca Cola has continuously reinvented itself over 100 years

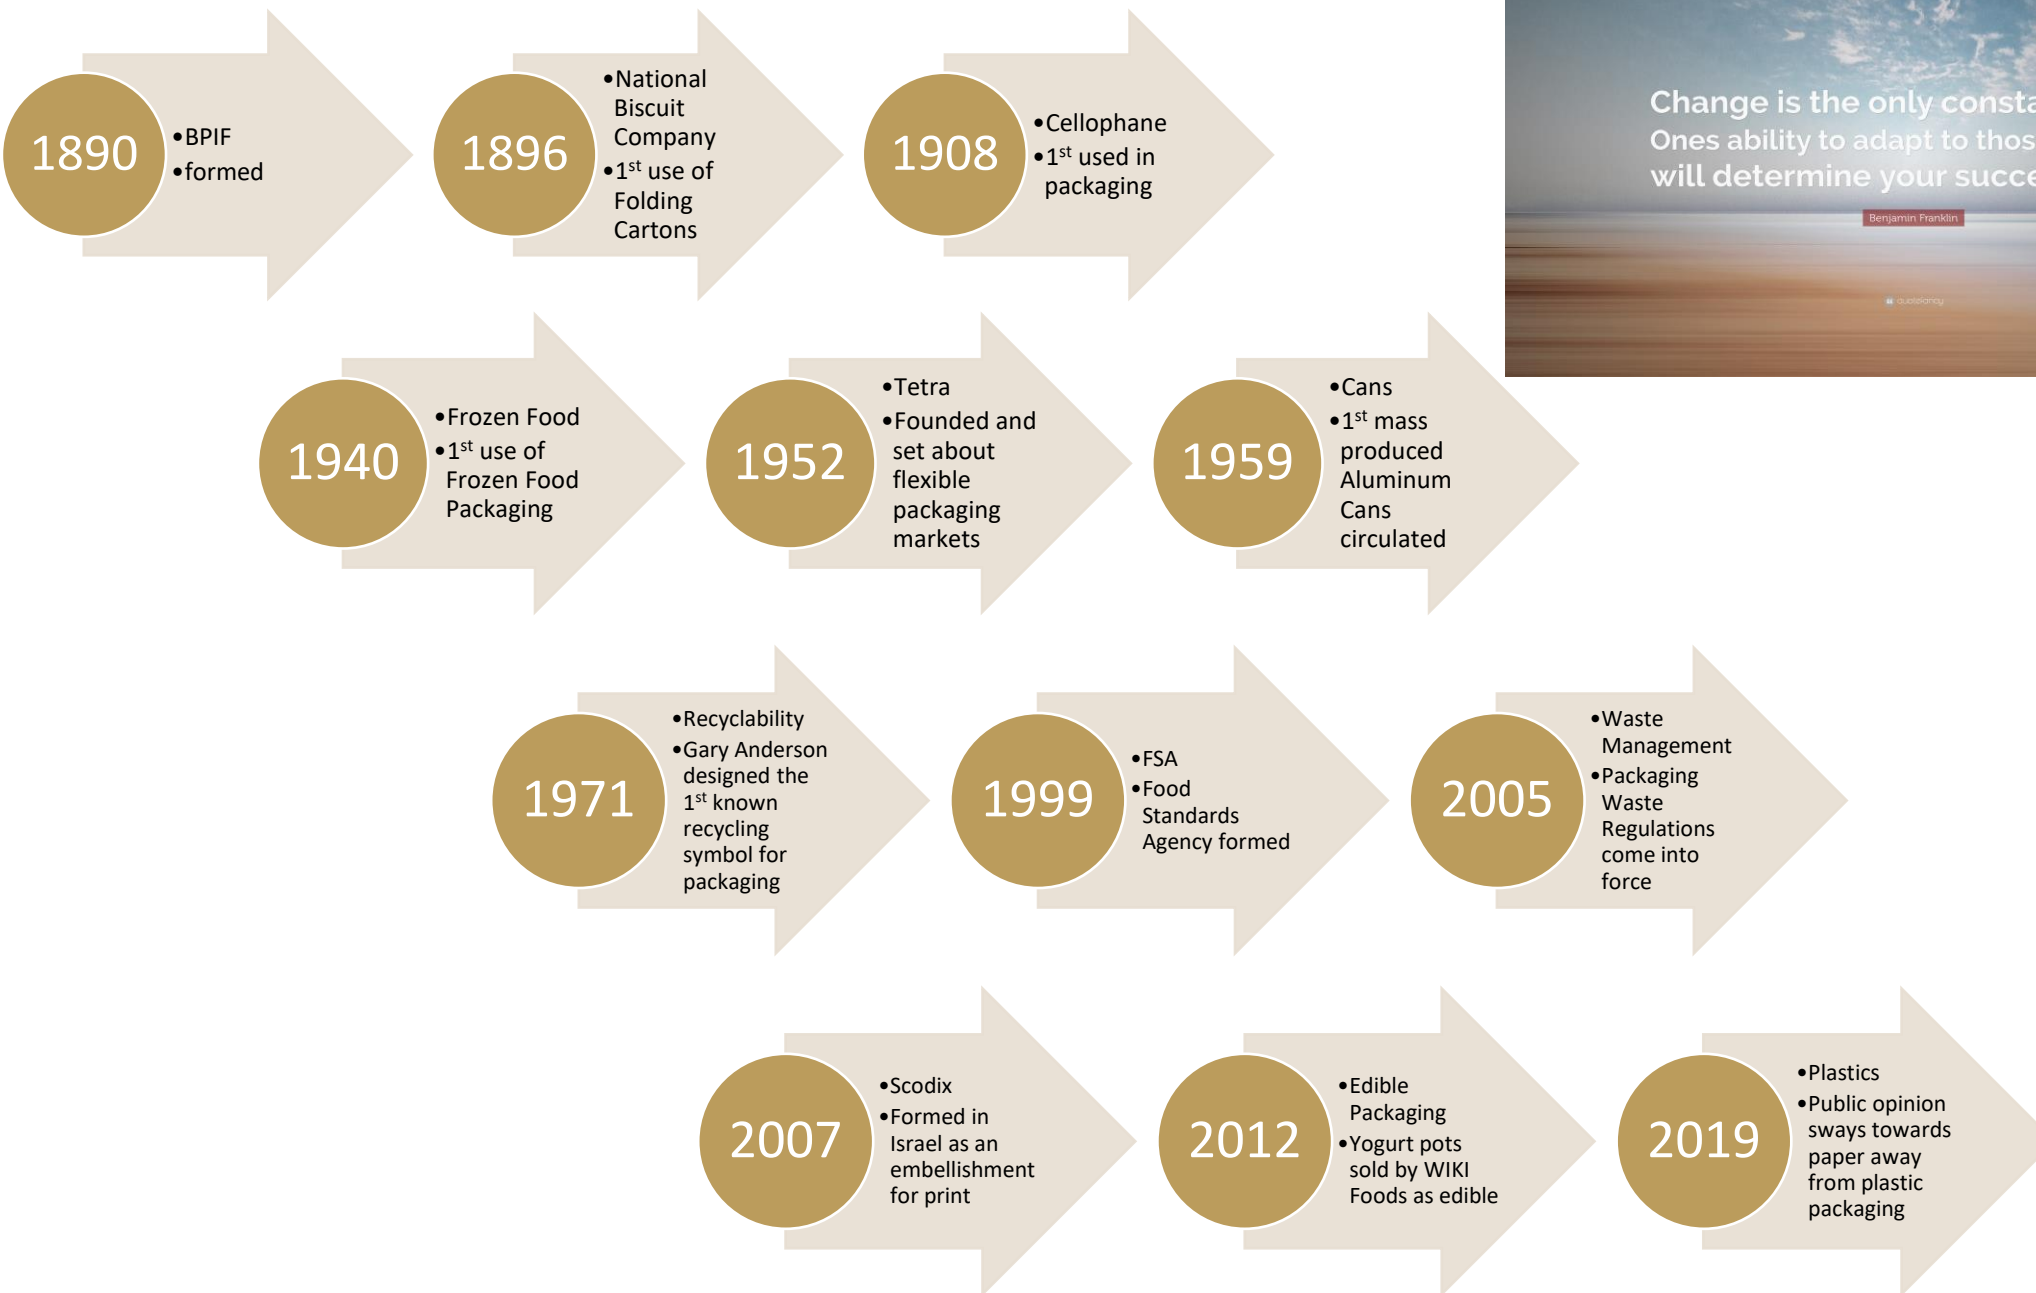

Aviation has transcended itself also over the last 100 years

In 1923 the World and USA Air speed record was 236 mph

SR-71 Blackbird: The Lockheed SR-71 Blackbird holds the official Air Speed Record for a manned airbreathing jet engine aircraft with a speed of 3,530 km/h (2,190 mph).

Should change be viewed as good?

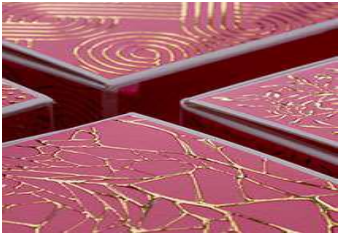

An Overview of our outputs

This Image shows foil on foil .We can also enhance this with polymer on top ,sealing and enhancing the spot image

Standard spot varnish is showcased here with exceptional accuracy .We register accurately with 4 cameras making in line adjustments.

Standard foil applications are enhanced with superb fine text and font sizes as low as 4pt .The definition of the foil edges is achieved using Super high-definition polymer (2 drops).

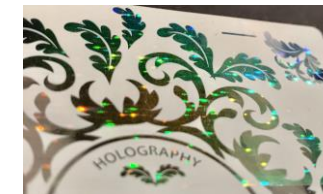

Variable data adds personalization to your solution. We have no static dies and have an open software architecture (Web to print)

We apply cold foil to enhance the products, whether it's a :

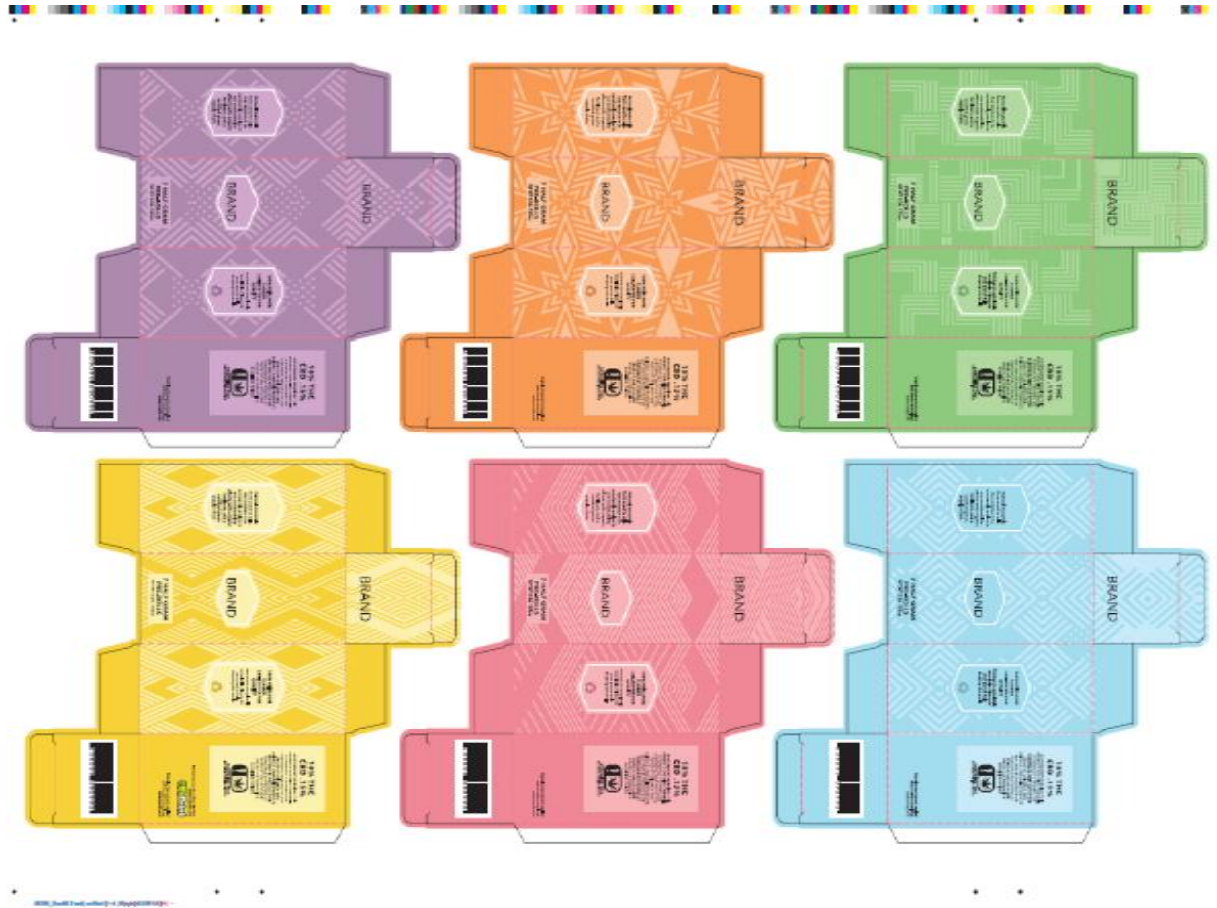

- Metallic finish
- Holographic finish
- Braille finish
- Crystal raised polymer finish
- Or a unique security finish

we can apply this to your product.

A true comparison in Files and Production

B1 Packaging file

- 6 x Dies - \$2,200
- 6 x Embossing Die - \$1,500
- Makeready - 8 hrs - \$2,000
- Speed 3000 sph - \$190

- Screen Mesh - \$200
- Makeready - 30mins - \$125
- Speed 2500sph - \$100

Cost = **\$6,315**

- Scodix Foil Polymer - \$0.12 sheet
- Scodix Spot Polymer - \$0.016sheet
- Speed 1,100 per hr - \$500

Cost = **\$638**
